You have received this email because you are on the Coeus Contact List.

**Question, Would you be interested in a Coeus report that pulls information from GM Grant > Award Year Breakdown, screenshot below? This would be another of the ORIS Reports available through Coeus Premium.

If interested, add “-Sure” to the Subject Line (after the ‘?’) and we’ll be in touch; otherwise, you can throw this away.

Background:

ORIS receives a data ‘feed’ from SAP that includes all of the AYB data – by Unit, Investigator, Grant number, etc.. We have from time to time, received Help Desk questions pertaining to AYB data. One of which caused us to send the “Coeus” email last week pertaining to 702e.

We do presently have several ORIS Reports (110 -118) which prorate AYB dollars based on the User-specified date range. These are described in the Report User Guide, pgs. 14-20.

If there is sufficient interest in this information, we will conduct some conference calls with those of you who have expressed an interest, with the goal of creating a Report (s) that meet your needs.
