Greetings.

Beginning Friday, August 18, 2017, the Mandatory Compliance Questionnaire (MCQ) will contain an additional question regarding Single IRB protocols.

Any currently "In Progress" PDs for which the MCQ already has been answered will need to have the questionnaire re-answered in order to capture the new information. Coeus will prompt that the questionnaire needs to be completed again. If the PDs questionnaire is not yet completed, the new questionnaire will simply be presented as usual.

The new question is as follows:

Does this grant proposal contemplate the use of a single IRB ("sIRB") to review the human subject research proposed?

Upload your letter of support from the appropriate JHU IRB for the proposed sIRB http://www.hopkinsmedicine.org/institutional_review_board/

Regards,
