

Subject: Coeus Medusa, ASSIST & Workspace Q&A
Date: Thursday, April 5, 2018 at 9:17:55 AM Eastern Daylight Time
From: ORIS
To: ORIS
Attachments: image001.png

Greetings.

ORIS will present a seminar offering information about Coeus' Medusa, a powerful, but often overlooked function in Coeus, as well as general information about training resources available for ASSIST and Workspace. In addition, Ron Schultz and Ellen Morthole will be available to field questions as well as identify needs for additional training and resources.

April 13th

2:00pm – 3:30pm

Eastern High School: B102

Registration is not necessary, but a general head-count will help us determine the number of copies of handouts to bring. If you 'intend' to attend, reply to this email – but change the SUBJECT line to read "See you there!"

Regards,
