2. Proposal Development (PD) record is not edited

As a rule, PD's are not edited after final approval by RA.

Once approved by RA, Coeus creates a corresponding unique Institute Proposal (IP) record. The PD record is then 'archived' and preserves exactly what the Principal Investigator submitted.

Edits required post-submission should be made by the RA in the PD's IP record. However, RAs may email ORIS if they believe a PD edit is necessary.
