Features – Design & Development

Activities In Progress

- Review the outstanding JIRAs and continue with the development
- JHU is currently testing the features delivered as part of the latest build

Integration

Activities in progress

Master Views : Met with JHU team to discuss the difference in behaviour of Master views between SDFibi and TR instances

Data Migration

Activities In Progress

- JHU is currently testing the Sample F&A migration dataset. Full F&A dataset will be provided to Polus for migration.

Activities Planned for the week of 27th February

- Polus will migrate the full F&A dataset as soon as JHU provides it
