The screenshot shows a web browser window displaying the ORIS Roles Request form. The browser's address bar shows the URL https://oris.jhu.edu/?page_id=1953. The page header includes the Johns Hopkins University logo and the text "OFFICE OF RESEARCH INFORMATION SYSTEMS (ORIS)". The main heading is "ROLES REQUEST".

Callout 1: A purple speech bubble with the number "1" points to the navigation menu, which includes "Roles Request", "Federal Systems", "Research-Related Links", and "Coeus".

Callout 2: A purple speech bubble with the number "2" points to the form fields for "Name", "JHED ID", and "Email".

Callout 3: A purple speech bubble with the number "3" points to the "Submit" button at the bottom of the form.

Text on the page: "Request Roles quickly with this ORIS form!" and "ROLES REQUEST Use this form for roles in Coeus or Fibi. If you already have roles in Coeus, you will not need to request roles for Fibi; all active accounts will be migrated for a seamless user experience." A separate purple callout box states: "Same form for Coeus and Fibi".

Form fields and options include: "Name" (Last, First), "JHED ID", "Email" (JHU email), "Is there a person whose roles we can mimic?" (JHED ID of name), "Cost Center(s) in which to apply roles:", "Roles Requested" (checkboxes for Proposal Creator, Modify all Dev Proposals, Aggregator, View All Proposals, Reviewer/Approver), "Are there any prior roles that should be removed?" (Yes/No), "If so, in which cost center(s)?", "Is access to webforms also required?" (Yes/No), "Who is completing this request?" (Requested by JHED ID), and "Required Bot Prevention..." (13 * 12 =).

A purple callout box points to the "Is access to webforms also required?" section, stating: "This is a new option to request access to webforms!".
