Greetings, Fibi Users!

Fibi will be unavailable to users

this Thursday, April 18th, from 6:00pm through this Friday, April 19th, at 7:30am.

Through this time, ORIS staff will be implementing and testing the patch. This patch addresses many issues, including, but not limited to:

- Allowing duplicate email addresses for separate Address Book records,
- Allowing Address Book zip codes with alphanumeric values (needed for foreign addresses),
- Increasing the character limit for Funding Opportunity information,
- Fixing the “watcher” bug in Service Requests,
- Adding a lock to Service Requests while editing,
- Fixing the completion date bug for training information,
- Adding department number to the Service Request search and its excel export,
- Adjustments to the Fibi preference window,
- Fixing the bug interfering with uploading attachments due to file extensions.
