Greetings, Fibi Users.

The latest upgrade for Fibi will go live this coming **Monday, June 23, 2025**. This is a major upgrade to Service Requests.

If you have service requests in the queue, try to complete and route them prior to EOB June 20th, as major changes may require PIs and Key Persons to re-certify or re-answer questionnaires if left in progress during the upgrade.

Some tips that were presented at the special Fibi Bits session on June 12 included:

- Errors regarding questionnaires/certs after go-live can be remedied by PIs entering the completed form, changing an answer, saving, changing it back to the correct answer and then saving again.
- The comments tab is now replaced with green comment icons, making it easier to enter and review all comments.
- Users can add project associations, automatically populating key personnel – except for pre-award types since certs are not required.

The next Fibi Bits session is scheduled for June 26th, at 11:00. Please visit the [ORIS Website](#) to register for the session or view scheduled sessions at the calendar.

Regards,

The ORIS Team
