

NIH Code

What is the list of NIH Codes and where do I enter the required information?

When the sponsor for a proposal record is listed as the National Institute of Health (NIH), the NIH activity code must be input on the Other Information tab in the proposal record.

NIH is continually adding new activity codes.

To find the list of all current NIH activity codes see the link below:

https://grants.nih.gov/funding/activity-codes?text_curr=Postdoctoral&Search_Type=Text

To find the appropriate Activity Code, look at the funding opportunity announcement and scroll down to the Activity Code or [CTRL F] and search for “activity code.”
